Projects

LaslesVPN homepage

This is a homepage converted from UI design to website [Figma design](#) using react JS. It doesn't have any functionalities but it is responsive on every device.

- React JS & CSS -

Valir

This project was designed to collect input from user (which was only numbers) and tell the user if it is an odd number, even number or prime number. This is a basic project built with react.

- React JS -

Shopping cart

This was a team project that was later cancelled due to some of the teammates having many school issues. The little that was made was still really impressive and could have been quite an incredible project.

- HTML, CSS, SASS, JAVASCRIPT -

To-do list

This project was built to store to-dos and all stored to-dos appeared on the webpage. It contains functions that helps to delete and change night mode and others

- HTML, CSS, JAVASCRIPT -

Portfolio

This was just a project as the pictures don't correspond (they depict two different people). This was a project to try and see how making a portfolio is like.

- HTML,CSS,JQUERY,JAVASCRIPT -
